Objective

To work me in an environment which encourages me to succeed and grow professionally where I can utilise my skills and knowledge appropriately to make the organisation successful.

Education

Course / Degree	School / University	Grade / Score	Year
B.E (Mechanical Engineering)	S.E.S College of Engineering MS (DHULE) North Maharashtra	64.50	2007
Diploma in Mechanical Engineering	Government Polytechnic Daman	65.54	2003
S.S.C/10th	Government Higher Secondary School (DIU)	53.71	1998

Career Experience

- **Aegis Vopak Terminals Ltd.** — Oct -2024 - Present
  Senior Engineer (Mechanical Maintenance)

- **Atul Chemical Ltd Valsad** — Oct -2023 - Sept - 2024
  Mechanical Maintenance Engineer

- **Pan Drugs Ltd Vadodara** — Aug - 2018 - June - 2019
  Mechanical Maintenance Engineer

- **Yogi Enterprises Ahemdabad** — May - 2008 - Jan - 2018
  Mechanical Maintenance Engineer

Work Synopsis

- A highly experienced Mechanical Maintenance Engineer with over 17 Years of proven expertise in plant maintenance, equipment reliability, and project execution within process and terminal industries. Skilled in maintaining and troubleshooting of rotating and static equipment such as pumps, compressors, valves, heat exchangers, and pipelines.
- Commissioning & Handling of A double Wall Refrigerated Tank having separate storage of Propane & Butane approx 48,000 Metric Tonnes. Experience all type of activities where to be followed for an successful plant commisioning. Maintaining of Plant Utility equipment like LPG Compressors (Screw type), LPG Pumps, Heat Exchangers, Heaters and Cooling towers (Induced Type).
- Maintenance & Preventive maintenance of rotary Systems like LPG Pumps, & chemical pumps etc. Maintenance and lubrication of an different types of Gearbox, Nitrogen flushing in LPG

compressors, proper alignment & assembly of the LPG submersible pump inside the tank.
- Maintenance of Stationary devices like LPG Loading Arm's, Marine Loading Arm's, Heat Exchanger Like Shell & Tube, Plate Heat Exchanger, all types of mechanical Valves.
- Experience of Jetty Shutdown & Maintenance like Pipeline correction painting & chipping timely welding and it's pipeline tappings, pipeline joints, LPG as well as Chemical Gantry shutdown & Maintenance activities, Maintenance of Glass Line Reactors & Inspectioning.
- Carried out all type of permits like hot,cold & work it height etc. so the work should be maintained in safe environment.
- Proper handling of an man power so it will be enhance the work quality & time.

Technical Skills

- Preventive & Predictive Maintenance – Planning and performing scheduled maintenance to avoid breakdowns.
- Troubleshooting & Root Cause Analysis (RCA) – Identifying and solving mechanical, electrical, and hydraulic faults.
- Mechanical Equipment Knowledge – Pumps, compressors, conveyors, gearboxes, bearings, valves, etc.
- Welding & Fabrication Basics – Knowledge of fitting, alignment, and material handling.
- Reading Technical Drawings – Interpreting mechanical drawings, P&IDs, and equipment manuals.

Cognitive Skills

- Problem-Solving Ability – Quick decision-making under pressure.
- Teamwork & Coordination – Working with production, electrical, and instrumentation teams.
- Communication Skills – Reporting breakdowns, maintenance schedules, and technical findings.
- Leadership & Supervision – Guiding technicians and managing maintenance teams.
- Adaptability & Learning Attitude – Updating with latest tools, techniques, and machinery.

Personal Details

- Date Of Birth:- 28th June 1983
- Material Status:- Married
- Gender:- Male
- Languages:- Gujarati, Hindi, English
- Current CTC:- 6.00 LPA
- Expected CTC:- Negotiable
- Notice Period:- 2 Months
